

**PPG** is committed to minimising the adverse environmental impacts of our business activities while continuing to meet our customers' expectations of quality and service. Across PPG, in the sourcing, manufacturing, packaging and disposal of our products, we will strive for continuous sustainability improvement.

We are committed to:

- Complying with all legal obligations and any other requirements to which we subscribe in relation to our environmental performance
- Conducting business in accordance with applicable legal requirements and our internal environmental policies and procedures
- Implementing environmental systems and procedures appropriate to the nature, scale and environmental impacts of our activities are incorporated throughout the business
- Developing, implementing and continually improving work practices that enable us to identify, assess and control risks
- Ensuring all managers remain directly responsible and accountable for the environment at their workplace by identifying and assessing the environmental hazards which arise from their activities, products and services, and seek to manage these risks
- Identifying and managing all individual environmental aspects of our business in order to seek to minimise adverse environmental impacts and prevent pollution
- Reporting on our performance and managing environmental incidents appropriately
- Periodically reviewing this policy, our environmental program and associated components of the health, safety and environment management system (HSEMS)
- Working with, and encouraging, our suppliers and contractors to conduct business with us in accordance with this policy; and
- Communicating this policy to all workers and other interested parties.

The principles in this policy apply to all locations and businesses of PPG. The national HSE team will implement and maintain the HSEMS (inclusive of standards, policies and procedures). This system will be monitored regularly to ensure its effectiveness and integrity to facilitate continuous HSE (OHS/WHS) improvement.
